SERVICES AT THE TABERNACLE.

Interesting Discourse by Apostle Rudger Clawson.

OFFICES OF HOLY GHOST

Has Brought the Saints Into a Union Such as Exists Nowhere Else in Christendom.

The services in the Tabernacle yesterday afternoon were presided over by President Angus M. Cannon and were opened by the choir singing the hymn, "Zion stands with hills surrounded."

The invocation was offered by Elder David R. Gill, Sen., after which the choir sang the hymn, "Hark, listen to the trumpeters."

The speaker was Apostle Rudger Clawson who began his discourse by saying he realized the responsibility resting upon those who address the Saints from the stand and the speaker therefore should always have the sympathy and prayers of the Saints. The speaker read from a revelation to the Prophet Joseph Smith in 1831, relating to the gifts of the Spirit and laws pertaining to the conduct of the Church.

The speaker pointed out that almost parallel instructions were given to the ancient Saints by the Lord through Paul and others of His apostles. The Latter-day Saints may well suppose then that when one becomes a member of the Church he receives some gift of the Spirit. The Holy Ghost, in its dispensation, is absolutely just and righteous, and it is one man more righteous than another, he will enjoy more of the gifts of the Spirit of the Lord.

Elder Clawson spoke of the union of the Saints and declared that it was not due to Joseph Smith, Brigham Young or any of their successors, but was the result of the operation of the Holy Ghost. It has caused the people to be actuated by the same motives. They are in harmony in their views in relation to the work of the Lord.

And whenever they have a temporal work to do, they go about it with a oneness of heart and they accomplish it. When any question arises there are the revelations of God to determine it, and if the written word is not sufficient there is the living oracle of God to go to and he can determine the question according to the mind and will of God.

The question of how the Holy Ghost is to be received, was entered into elaborately. Many passages of the scriptures were quoted setting forth the doctrine of the laying on of hands for the reception of the Holy Ghost. It was declared that that ordinance was one of the most important of the people, and was dispensed with by the world and is now only heard of among the Latter-day Saints.

Apostle Clawson dwelt briefly upon the subject of obedience to divine authority. The Saints were admonished to be faithful and to study the works of the Church. While the Lord requires the Saints to obey, He also requires them to find their minds with truth that the Spirit may draw upon them when occasion demands.

The benediction was pronounced by Elder C. W. Penrose.

MCKINLEY MONUMENT.

Governor Wells Asked to Call on School Children for Funds.

Governor Wells is in receipt of a letter from Hon. William R. Day of Cleveland, president of the McKinley Memorial association, asking him to set aside January 29th, the birthday of the martyred president, as a special day for the contributing of funds for a monument to be erected at Canton, Ohio, at a cost of \$50,000. Mr. Day suggests that the school children in every state be asked to give their mites for the memorial fund.

In relation to the matter, the Governor says:

"Before asking donations from the school children I will consult with the state superintendent of public instruction. As a general thing I disapprove of collecting money for any purpose from the pupils in attendance at the public schools. It establishes a bad precedent, it is likely to become as common as to constitute an expense which parents can ill afford; it opens the way for the extravagant and wasteful expenditure of funds so collected; it draws a painful distinction between the children who can give much and those who have little or nothing to give. But this is a matter of patriotism, and I believe that the people of this state will support the project of the McKinley monument."

COMMERCIAL CLUB MEETING.

Auspicious Session of Business Men at Knutsford.

ANOTHER MEETING JAN. 13.

Sentiment Unanimous for Launching The Organization at Once—Committee Will Submit Plan.

Salt Lake's Commercial club was given a rousing good start Saturday night at the Knutsford hotel, and the outlook for the new organization is most promising. Of the 100 business men of this city invited by Governor Wells to be present at the meeting, fifty-five were in attendance, a number of others sent their regrets, stating their sympathy with the movement, and yet others were out of town and unable to attend. Then a number of invitations manifested their interest in the new organization, and a permanent organizing committee was formed.

There was not the slightest sign of opposition to the proposed organization, and those present congratulated themselves that the outlook was so favorable. The sentiment was unanimous for the launch of the club at once, and by-laws, to report at a second meeting to be held next Saturday night at the Knutsford hotel, when a permanent organization will be formed.

CARRY-BOLE-IN-THE-WALL GANG.

Head of the Notorious Band of Outlaws in Custody—Will Probably Pay Penalty for Some of His Misdeeds, in Montana.

Special Correspondence.

Cheyenne, Wyo., Jan. 11.—United States Marshal F. A. Haddell and Chief Canada of the Union Pacific Express service have returned from Casper, where a warrant was secured for Harvey Logan, alias Curry, the notorious outlaw, who fired the shot that killed Sheriff Joe Hazen of Converse county, forty miles north of Casper, on June 6, 1899.

The securing of this warrant was not really necessary, for Curry is already in the clutches of the law, but it was deemed advisable to take this action and have the machinery of the Wyoming law all ready for work in case the Montana authorities should fail to secure a conviction.

While Curry was wanted badly in this state, and would probably be convicted here on either charge of train robbery or murder, the Montana authorities have been generally of the opinion that the state's outlaw will probably pay the penalty for his many crimes.

Harvey Logan, or Curry as he is better known, was the brains of one of the worst gangs of outlaws that have infested the western frontier. For many years this gang, which was known as the "Curry, Hole-in-the-Wall," "Robber's Hole," and "Brown's Park" gang, was a terror to the entire country east of the Rockies, west of the Mississippi, and from the Gulf of Mexico to the Canadian frontier. The Jesse James gang of outlaws was as nothing compared with this organization, and threats. The James gang confined their work to a small territory, but the Curry gang operated over a wide expanse of country, and made the most daring robberies and killings in the West.
